

Millennium Red Team

Millennium Corporation is a CVE Certified, Service Disabled Veteran Owned Small Business (SDVOSB). We provide a full range of Cyber Solutions to protect data, systems and networks from cyber threats, while mitigating risk and impact for our U.S. Government clients.

The Millennium MILSPEC Approach

Using threat-intelligence backed tools and methodologies, we identify true risks present in our clients' environments. Millennium has decades of experience performing threat based cyber campaigns against corporate, government, and hardened military networks and weapons systems. Our team of TS/SCI cleared cyber operators bring decades of experience as interactive on-net operators, C4ISR platform operators, malware analysts/reverse engineers, network engineers, enterprise administrators, software developers, intelligence analysts, and network defenders.

Millennium Corporation currently provides the technical expertise, mission execution and capability development to 2 of the 9 NSA certified and CYBERCOM accredited Department of Defense (DoD) Full Spectrum Red Teams.

With over 30 highly skilled and experienced cyber operators, Millennium currently employs the largest contingent of Red Team operators that meet the stringent qualification standards of certified DoD Red Teams. In 2017 alone, Millennium supported the full execution of over 70 separate cybersecurity assessments ranging from 5 days to 365 continuous days of execution.

Who Is Millennium

Office Locations

Arlington, VA • Aberdeen, MD • Charleston, SC
Huntsville, AL • Picatinny, NJ

Let's Work Together

We believe in a collaborative approach to business, with clear and open communication with our partners and customers - providing access to the following Contract Vehicles.

Prime Contracts

- ARDEC LRED
- B2S2
- GSA IT 70
- GSA 00CORP
- JPEO CBD OPETS
- NAVAIR Cyber Warfare Detachment (CWD)
- Seaport-e 8(a)
- SSC PAC CSRETI
- USPS OIG Penetration Testing Service

Other Contracts

- AMCOM EXPRESS
- CIO-SP3
- DHS EAGLE II
- DHS PACTS II
- DLA JETS
- GSA Alliant
- GSA OASIS
- HHS SPARC
- PMSS III
- RS3

NAICS Codes

- 541519 Other Computer Related Services
- 541330 Engineering Services
- 518210 Data Processing, Hosting, and Related Services
- 541712 Research and Development Physical, Engineering, Life Sciences
- 541511 Custom Computer Programming Services
- 541512 Computer Systems Design Services
- 541513 Computer Facilities Management Services
- 541611 Administrative Management and General Management

DUNS: 144506081 | **CAGE Code:** 3VQP8

Red Team Services

► Service Offerings:

- Red/Blue/Purple Teaming
- Physical Security Assessments
- Offensive Cyber Training
- Tailored Software Development
- Technical Research and Development
- Cyber Exercise and Test Planning
- Intelligence Analysis
- Certification and Accreditation
- Network Architecture Reviews
- Secure Code Reviews

► Assessment Types:

- Operational/Developmental Testing
- Adversarial Assessments
- Cooperative Vulnerability and Penetration Assessments
- COCOM Exercises
- Persistent Cyber Operations (PCO)
- Cyber Table Tops
- Cyber Range Experiments
- Cyber Mission Forces Training Scenarios

► Military Platform/Program Familiarity:

- Military Medical Systems
- Fixed-wing and Rotary-wing Aircraft
- Tactical Ground Vehicles
- Missile Defense Systems
- Satellite Systems
- C4ISR
- Enterprise Resource Planning Applications
- Unmanned Aerial Vehicle

► Development Capabilities:

- Tailored Command and Control
- Open Source Tool Vetting
- Reverse Engineering
- Data Analytics
- Cross-protocol solutions
- Full-stack web development
- Proprietary Protocol Analysis

► Technology Expertise:

- Serial Bus Standards (MIL-STD-1553, CANBUS, Modbus)
- Enterprise Networks
 - Windows and Active Directory
 - *nix environments
- Database Technologies (RDBMS, NoSQL)
- Web Technologies
 - Client side frameworks (JavaScript, React, Angular)
 - Server Technologies (.NET, PHP, Node.js)

CPARS

“They have a **keen ability to hire, and retain** qualified personnel.”

“The government has had limited success recruiting people in this arena, but Millennium Corp. has shown a great, if not unique, ability to find the right people at the right time. Millennium management has demonstrated **they know brilliant cyber operators** and have effectively brought them on board when needed.”

“Millennium Corp has consistently provided exceptional quality both in terms of personnel and their technical expertise. Red Teaming and Threat CNO is extremely complex and rapidly changing, and Millennium has **routinely exceeded the government's expectations**. If we did not have the support of Millennium under this contract, government systems would be put in jeopardy of not being able to defend against foreign or domestic cyber invaders. The quality of the personnel has been exceptional.
